

Nate Collinsworth

Jazz with a Twist

FOR IMMEDIATE RELEASE

Cincinnati, Ohio April 1, 2010 - Nate Collinsworth, world renowned jazz trumpeter, has come into his own. After years of recording and arranging music for some of the top artists, Collinsworth is debuting his first solo album, *Jazz with a Twist*.

His original composition, *Renegero* is a relaxing masterpiece with a Latin samba beat.

Collinsworth has upped the ante in *Scarborough Fare* by playing a duet with himself. His arrangement allows him to move from a gothic feel to a fast bebop jazz with ease.

Collinsworth's arrangement on the childhood favorite *Puff the Magic Dragon/Puffin* brings it up to date with an unbelievable haunting sound. Adding a flair to make it his own, Nate's unique approach brings jazz and the classical styles together.

Mac Frampton, America's Most Exciting Pianist finds Collinsworth "to be one of the most dedicated musicians" he's ever met. Frampton continues, "Nate is completely devoted to his music and his art. His discipline and his energy combine to ensure that his performances are consistently crisp and intelligent. Nate is everything one could ever ask for in a jazz musician. He has total command of his instrument. He is completely unselfish. His solos are inspiring and innovative. Nate is a unique individual: a supremely gifted jazz musician who is also a supremely good human being. I would never hesitate an instant to include Nate on any project I was developing. He ranks right up there with the very best in the business!"

Fred Shaw owner of Bradley House Studios says about Collinsworth, "I was intrigued by how he recorded the album in the Philippines. It was 120 degrees in the studio which made for grueling conditions. The quality of the album is unbelievable. It was an honor for me to mix and master his first solo project." He continues, "Nate's unique arrangements will impress any listener. His arrangements start simple and then become extremely intricate. It's like someone taking you for a ride on a true musical journey. I have played with him around the United States and I have seen people watch him perform. The crowds are so surprised by his range that their mouths drop open in amazement. This album has finally showcased his true talent. I know it will receive international airplay because it truly is *Jazz with a Twist*. I can't wait to work with him again."

Collinsworth has begun scheduling dates for his world jazz tour. Dates will be announced in the near future.
